

BBQ Smoker Gift Pack

While the classic brick or 44 gallon drum BBQ still persists in some die-hard backyards, most households have gone the way of gas with many now purchasing second generation gas BBQ's. These are usually stainless steel with all the mod cons; hoods, rotisseries and separate burners for woks and coffee machines!

The humble backyard BBQ has now become a status symbol. Where does the consumer go from here? (or what do you give the man who has everything?) Simple - you accessorise! The Smokehouse Aromachef Gift Pack contains our quality stainless steel BBQ Smoker and a 350g tube of our finest Manuka Aromachef woodchips, making the Smokehouse Aromachef Smoker Gift Pack the ideal BBQ accessory or gift and the perfect introduction to the wonderful world of hot smoking!

Packed in a high quality, laminated and reinforced cardboard box is our unique Aromachef stainless steel BBQ smoker and a refillable starter tube (350g) of premium Manuka chips.
